

# Partnerships & Integrations

While all libraries should serve as the hub of school resources, not all libraries and patrons are equal! You understand the needs of your students and patrons better than anyone, and Alexandria provides a “One-Size-Fits-Me” solution. Our partnerships with the best-in-class library solution providers, give you the freedom to choose which resources are going to serve your students best, providing you that “One-Size-Fits-Me” integrated library system!

## SIS INTEGRATIONS

We understand that a librarian’s time is a precious commodity for you. Alexandria provides you with more time to focus on what matters most; your students and teachers. This is why Alexandria is the only library management system to integrate with Clever or GG4L to create a seamless, set-it and forget-it integration with your SIS (Student Management System) taking patron management off of your plate. Your SIS becomes the single source of truth, and any changes are automatically reflected in Alexandria. Our GG4L integration also includes Single Sign On to increase the accessibility of your collection to students, and eliminating password management from your plate. Your IT staff will love this too, as it takes it off their hands as well.

### SINGLE SIGN ON

Leveraging GG4L’s SSO integration allows you to use your existing Google, Microsoft, LDAP credentials, or any single username and password, to unlock your Alexandria on any device for students, teachers, and staff; assuring your authentication methods are securely managed and made seamless, saving you time and money.

### AUTOMATIC

Student roster information automatically updates in Alexandria each day.

Automate daily additions, edits, and graduations.

### SAFE AND SECURE

School administrators can be assured that privacy and security protocols are met.

Alexandria®

# SIS INTEGRATION BUNDLE

COMPanion SIS Integration Bundle supports open standards, including IMS OneRoster. COMPanion applications are automatically compatible with the format, and districts or schools can leverage OneRoster files for all of our applications.

Student Data Privacy is a top-of-mind priority, so you can help students learn in the classroom without worry. COMPanion partners with the leading SIS integration partners like **Clever** and **GG4L** who provide products and infrastructure designed, built, and tested to meet high standards of security.
